**SLIGO IRON & STEEL COMPANY  
AUTHORIZES EXPENDITURE OF  
\$60,000 ADDITIONAL AT PLANT****Employment of 500 to 600 Men  
By April 1 is Under  
Contemplation.****PLAN COMPREHENSIVE ONE****On Carrying Out Its Details Management Calls For the Loyalty and the United Support of Men; Cooperation Keynote of Meeting in Moose Hall.**

Following up its announced intention of making the Sligo steel mill a real asset to Connellsville, the Sligo Iron & Steel company last week appropriated an additional \$60,000 for improvements, making \$360,000 set aside for that purpose since the plant was taken over a few months ago, according to announcement made Saturday night by General Superintendent William P. Mullane at a meeting and smoker of Sligo lodge of the Amalgamated Association of Iron & Steel Workers in Moose hall. The initial \$200,000 has been expended. The remainder will be available as it is needed on improvements that are to be started at once, chief among which are the erection of a shipping building and the installation therein of the latest modern devices for loading the finished product onto cars.

By April, said Mr. Mullane, the company plans to have on its payroll between 500 and 600 men and soon it will be paying out \$100,000 monthly to the workers. At present the payroll amounts to \$40,000. The company is preparing to increase its monthly output to 500,000 tons just as soon as conditions warrant, the superintendent added.

The above and other facts of vital interest to the employees and the city were set forth by Mr. Mullane in what was an unusual meeting in labor annals here, especially as related to Sligo, the record of which in past years has not been good, as pertaining to cooperation between employer and employee. Mayor John Duggan, Factory Inspector James S. Darr, D. T. Hinkleman, representative of the United States Employment Service, and James Brady of the trades council, were also speakers. E. P. Cusack of Sligo lodge presided, and also contributed to the entertainment program of the evening by readings and songs.

Cooperation was the keynote of every talk that was delivered. Superintendent Mullane demanded it of the men, promising the fullest cooperation in every way on the part of the company. The other speakers, without exception, urged the intensive cultivation of the same spirit. A new era has dawned, it was agreed, not only for Sligo and the Sligo workers but for capital and labor everywhere—an era that will, it was predicted, lead to industrial peace.

"Without doubt, gauged by the applause they received, the most interesting remarks came from Superintendent Mullane. First the superintendent very fully and pointedly told the men they were not doing their full duty for the company and themselves in that they are not turning out the product they should. If it is possible for them to double their incomes and at the same time boost the welfare of the company, he strongly insisted that they do it. Very frankly, Mr. Mullane told the men that in signing the scale of the amalgamated association recently the company was not acting out of charity, but that in so doing it confidently expected to receive greater cooperation on the part of the employees. Declaring that it is the intention of the company to deal honestly with the men Mr. Mullane made it emphatic that in return the company will demand honest treatment and that if there are any among the working body who are not willing to be on the square there can be no other way than to go them out, for the benefit of all.

"We're willing to go the limit in the expenditure of money to put the plant in first class condition. We will do all we can. In return we need and must have the cooperation of the men," the superintendent said.

Of the \$60,000 appropriated last week Superintendent Mullane said it is the intention among other things to make use of a part to erect a shipping building 200x70 feet at the finishing end of the plant, the building to be equipped with monorail cranes, and every modern device for expediting the handling of the product of the plant ready for loading onto cars for shipment. Mechanical shears and other appurtenances of a modern steel plant are to be installed.

"Referring to the security of boarding places for employees Superintendent Mullane told the men it is the intention of the company to erect boarding houses so that full operation of the plant when the present slight depression is over will not be handicapped by inability to take care of the hundreds of men that will be needed.

In this connection Mr. Mullane expressed the belief that while the company is doing and will do all in its power in the providing of housing, the city should not be a slacker in this (Continued on Page Six.)

WASHINGTON, Jan. 13.—Representative T. S. Craig on Saturday introduced a bill designed to give proper recognition to American officers who were deprived of deserved promotions by the sudden signing of the armistice.

## MRS. SANFORD'S MESSAGE TO WORKING WOMEN

Laurel, Miss. — "Eight years ago I was suffering with pains and weakness caused by a female trouble. I had headaches, chills and fevers, and was unable to do my work part of the time. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took twelve bottles of it, and my health has been good ever since. I am able to run the machine and do dress-making besides my housework. You are at liberty to publish my letter if it will help some poor suffering woman."

— Mrs. J. C. Sanford, 1227 Second Ave., Laurel, Miss.

Thousands of women drag along from day to day in just such a miserable condition as Mrs. Sanford, or suffering from displacements, irregularities, inflammation, ulceration, backache, headache, nervousness, or "the blues."

Such women should profit by Mrs. Sanford's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did. For special suggestions in regard to your ailment write Lydia E. Pinkham, Medicine Co., Lynn, Mass. The result of their long experience is at your service.

### A Slight Lapse.

"Was I full last night?"  
"No, I wouldn't say that."  
"Tell the truth. What was I doing?"  
"Well, you were writing with a lead pencil and blotting things carefully as you went along."

### A Real Treat.

Mrs. Gadabout—It must be terrible to be afflicted with insomnia and not be able to sleep at night.  
Mrs. Gadder—Oh, there are worse things. I've rather enjoyed myself since I learned my husband talks in his sleep.

### Shining Example.

"Great hair restorer," said the barber.  
"But you are terribly bald-headed."  
"I'm keeping that way to remind customers of what can happen if they don't use it."

### Mercenary.

Miss Askitt—How do you know you will marry Mr. Richleigh when he hasn't proposed? Have you read his financial rating?  
Miss Pettikid—No, but I read his financial rating.

### What One Is.

"Say, pa," began the human question mark, "what is a literary genius?"  
"Any fellow who dies having been known to sell two jokes, a poem and a sweet pickle recipe to the magazines."

### Hard to Get.

"I hear our neighbors are delighted instead of incensed by their son's stolen marriage."  
"Yes; he eloped with the cook."

A SCENE FROM "THE SINNERS," AT THE SOISSON THEATRE TODAY

## "SINNERS" AT SOISSON.

To Owen Davis must be given credit for writing perhaps the most unusual play the American stage has seen in many a day and as produced by no less a producer than William A. Brady, "Sinners" gave New York theatregoers a sensation that crowded the Playhouse for more than a year. Determined to give the public only the best, Mr. Hillis, manager of the Manhattan Players, has arranged with Mr. Brady to present this wonderful success as the opening production at the Soisson theatre Monday matinee and night, January 13. The scenery and electrical effects will be duplicates of the original. The Manhattan Players are known in every home in Connellsville and with an even bigger and better company than last season the seating capacity of the beautiful playhouse will be taxed. Reserved seats for the opening night are selling rapidly at the box office. Orders by phone will be laid aside by Mr. Wagner.

## THE PARAGUAY.

"HIS BONDED WIFE"—A Metro attraction in which Emory Cohen appears in a delightful role is being shown today. The story is that of a young society debutante who wishes to be sure that the man she marries is in love with her own beautiful self and not her wealth. With this idea in view she leaves her luxurious home and lives the quiet simple life of a girl in ordinary circumstances. Here she meets and falls in love with a young architect who is also in love with her. She still poses as a poor girl, however, and the usual complications which arise from many humorous situations, as well as many sentimental ones. One of the latest of New York's department stores, that of R. H. Macy, is shown in the scenes of the picture. Coupled with the thrilling and interesting scenes at Atlantic City, Miss Cohen's new vehicle is said to be one of the most perfect pictorially and dramatically that she has ever done. The role of the young architect, Phil Hazard, is played by Creighton Hale. Frank Currier is seen as Digby Morse. A selected comedy it also being shown. Tomorrow "Corinne Griffiths" will be seen in "Mits Ambition."

## THE ARCADE.

THE PENNSYLVANIA BEAUTIES—The management of the Arcade presents to its patrons this week something out of the ordinary. Mullen and Trader's Pennsylvania Beauties, inasmuch as it was organized and rehearsed here in Connellsville, and is composed mainly of local people. Both Mr. Mullen and Mr. Trader are well known showmen and have organized several tabloids in recent years. Mr. Tommy Mullen is the principal comedian and manager, and is ably supported by the dainty little soubrette, Miss Verna Bierch, and by Mr. Glenn Hetzel, the dancing wonder, formerly with Al G. Fields' minstrels. With the company is also Mr. William Leonard, well known as one of the famed Keystone quartet, and a chorus of six finely costumed girls, who furnish all the beauty necessary. The offering for Monday and Tuesday will be "Buying a Landing," something new and novel in tabloids. The scenery is brand new, having just arrived from the studios. No pains have been spared to make this the best show during the Gus Sun circuit. On the screen for Monday and Tuesday will be the "House of Hate," No. 16, featuring Pearl White and Antonio Moreno.

## WARNING ISSUED TO THE PUBLIC

Users of Gas Are Urged to Keep Closer  
Watch on Heaters During Changing  
Temperatures; Funeral of Avery  
Overholt Very Largely Attended.

Special to The Courier.  
MOUNT PLEASANT, Jan. 13.—The low pressure of gas during the cold of Saturday night, followed by increasing pressure as the weather became warmer Sunday, resulted in a small fire in the shop of Peter Cost in East Main street, near the Cox theatre. The valve had been left wide open with the result that when the pressure increased the heat became so great that leather nearby was set afire.

The incident prompted the fire committee of council to send out a warning to the people to see that gas fires are watched more closely during the changing temperatures so as to avoid the danger of fire.

Charles Agnew, 5442 Elm street, Philadelphia, in describing the improvement in his wife's condition says: "She suffered from nervous indigestion, a run-down system with twinges of rheumatism in her joints. She was not very ill at any time but just had the nagging gastritis with jumpy nerves. She bought Tanlac because a friend and her daughter recommended it. By use of Tanlac she is doing better than for a long time. Tanlac has helped her through a trying period."

Info Millions in Value.

WASHINGTON, Jan. 13.—Losses from hog cholera declined greatly in the four years, 1914 to 1917, and a further reduction is expected for 1918, says a letter from the Secretary of Agriculture to Addison T. Smith, a member of the House of Representatives. The secretary calls attention to the necessity for state cooperation in the federal government's campaign against this destructive animal disease. The losses for 1914 totaled 6,204,300 animals, which, valued at \$10.40 a head, made a monetary loss of \$64,697,461; for 1917, 2,952,144 animals, valued at \$11.73 a head, a monetary loss of \$32,475,190. ## KANGAROO PUGILISTS IN WAR

Number Estimated at 1,000 by Snowy  
Baker, Australian Promoter—  
Many Stars Lost.

Snowy Baker, the famous fistic promoter of Australia, says that there are probably 1,000 kangaroo boxers in the war, and that probably more than half of them have sacrificed their lives in battle. The number of boxers in the service of other allies, while not as high in proportion to population as that of Australia, is great, nevertheless. France, especially, lost many of her most brilliant fistic stars on the bloody battlefield.

## FOOTBALL COST \$3,000

The Kansas football season cost the athletic association about \$3,000 and K. U. usually clears nearly \$10,000 on football, according to W. O. Hamilton, manager of athletics. The football games usually pay for the basket ball games, track meets and baseball contests, as the last three are always losers there. One-third the usual number of men took part in football practice this fall. The Nebraska game cost Kansas about \$1,400 and usually nets K. U. \$5,000. The weather and the "flu" caused the doleful this fall.

## HOW HOLLOCHER MISSED WAR

Star Shortstop Was All Dressed Up  
and Ready to Fight When Armistice Was Signed.

Charley Hollocher, bright star of the Chicago Cubs last season, was in the September draft. Then came the influenza epidemic and the call for that month and also for the next was suspended. But about the first of November Hollocher, with a lot of others of the "class of 1918," got his orders and he showed up, all dressed for the part, on November 11, prepared to do

Charley Hollocher.

his bit for Uncle Sam—and that day came news of peace and cancellation of the draft call.

So Hollocher does not go to war, but stands ready for the baseball campaign next spring. "Seems harder to break into the army than it did to break into the big league," he said, as he stood around all dressed and nowhere to go. The shortstop star is a willing "victim" of peace, however, though he has one regret. He had organized a ball team of St. Louis draftees in the same case with him that he says could have beaten anything in the army, with himself as playing manager. He's really a bit pained that the team will never have its chance now.

MIGRATORY BIRD LAW  
NOT DECLARED INVALID,  
SAYS GAME ASSOCIATION

Report Arose from Withdrawal of the  
Suit to Test Its Constitutionality;  
New Measure Is Better.

NEW YORK, Jan. 13.—The American Game Protective association, the sportsmen's national organization, brands as erroneous a press dispatch just sent out to the effect that the Supreme Court at Washington has declared the federal migratory bird law unconstitutional. The statement of the association continues as follows: "The fact is that the so-called federal migratory bird law was repealed on July 8, 1917, when the President signed the Canadian treaty enabling

act. The new measure which superseded the old one is a better and bigger law with exactly the same object as the former measure. It provides what the former law lacked, an efficient machinery for its enforcement, and the governments of this country and Canada are now squarely united in the protection of all the birds of the continent north of the Rio Grande.

"What happened at Washington was that the solicitor-general asked to have dismissed his own motion before the Supreme Court which was to test the constitutionality of the original migratory bird law. It was no use arguing the case, because there is no longer any Weeks-McLean law. "The federal regulations, therefore, which absolutely protect in this country the birds which are valuable to agriculture and which make open seasons for the migratory birds which are

### SLIGO COMPANY IS TO SPEND \$60,000 MORE AT ITS PLANT

proposed. The steel company, he said, has not asked anything of the city to this time. It should wake up to the fact, he declared, that the distribution of \$100,000 monthly in pay will be a big thing for the business interests. Since coming here Mr. Mullane learned that the city has no chamber of commerce. "I would have looked it up had there been one," he said.  
Within a short time the company will, Mr. Mullane said, enter upon a comprehensive plan of welfare work among the men. This will include the opening of rest rooms and the installation of shower baths and other conveniences. It is also the intention, he said, to have monthly meetings of "employees of the Sligo Iron & Steel company," not only meetings of the workers, but as a union. "We want to get the men imbued with the Sligo spirit," he said. To this end the attendance of every employee at these gatherings will be expected. There will be short welfare talks, and lunch on each occasion together with other features of interest.

Along with his other pointed remarks the superintendent issued a warning against intemperance. In this he was backed up by others who spoke.  
Mr. Dugan, the first speaker, urged the spreading of a propaganda based on the Ten Commandments, reduced to the proposition of "Love God, show all things and thy neighbor as thyself." This, he said, will prevent labor wars.  
Superintendent Mullane was the second speaker and following him James Brady, representing the railway clerks who are affiliated with the trades council, spoke of the changes that are coming about in the attitude between capital and labor. He and other speakers cited attention to the fact that a few years ago such a thing as fraternizing of the superintendent of a plant like Sligo with a body of union men would have been looked upon as something not to be even considered.

As emphasizing the changing conditions Inspector Darr referred to the efforts of the Baltimore & Ohio Railroad company in years gone by to prevent the assembling of the engineers

### BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.  
These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.  
Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

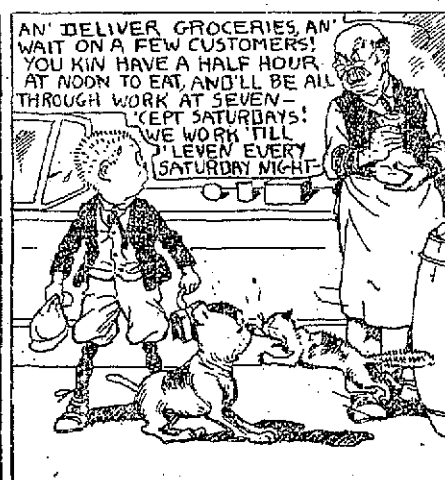

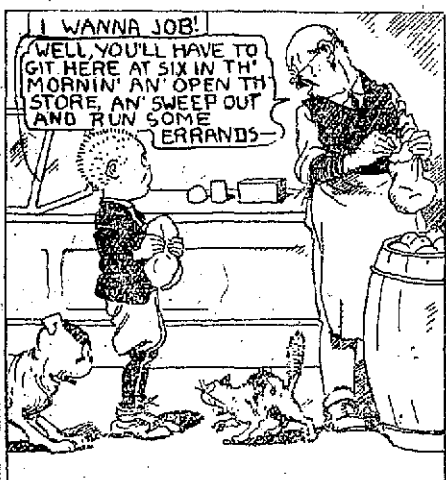

organization of which he was a member. Then, instead of seeking the co-operation of the union, the company, others also, stationed detectives to watch the men and in other ways endeavored to hamper them, he said. Touching on the installation of safety devices in industrial plants Mr. Darr declared that greater cooperation is being secured from the employers in the matter of installation than of the employees after they are installed. Mr. Darr also suggested that at the next meeting the union extend an invitation to the merchants to attend and attempt to arrive at a better understanding between the two bodies.  
A plea for cooperation in the matter of placing men and filling requisitions for labor made up the talk of Mr. Hirsman, the employment representative.  
Thomas Evans, the only member here of the old Sligo lodge, made a few remarks. He has been a member of the amalgamated association since 1885.  
An orchestra played during the evening. After the speaking lunch was served by a committee in the lodge.

SMITHFIELD, Jan. 12.—Mrs. John Wallace is seriously ill from complications, following a siege of the flu.  
Porter Goodwin of Nicholson township was a business visitor on Saturday.  
John Coan of Springhill township was a thorough business visitor Saturday.  
No place in the United States seems to be immune from the flu, regardless of health or climatic conditions. The epidemic claims its victims, alike north, east, south and west. In a letter from a niece in Hood River, Ore., region, where the death rate is lower than any other in the United States she says the disease has been epidemic there, the schools having been closed two months on account of it. Many deaths occurred from the disease. Her only nephew died while visiting his father's people in Minnesota.  
Prof. F. B. Whoolery of Ruble was a thorough visitor Saturday.  
Mr. and Mrs. Henry Mallory visited their son-in-law and daughter Saturday, Mr. and Mrs. Fred Warnan, at Uniontown.

### DAILY HEALTH TALKS GOING BACK TO NATURE.

BY DR. W. LUCAS.  
People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how needless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your relief and health. Try them by all means. They are probably the very thing you need right now.
